

# Journal of Veterinary Diagnostic Investigation

Volume 13, Number 4 July 2001

## Table of Contents

### FULL SCIENTIFIC REPORTS

- Complex vertebral malformation in Holstein calves. *Jorgen S. Agerholm, Christian Bendixen, Ole Andersen, Jens Arnbjerg* ..... 283–289
- Partial passive protection with two monoclonal antibodies and frequency of feeding of hyperimmune anti-transmissible gastroenteritis virus (TGEV) serum for protection of three-day-old piglets from a TGEV challenge infection. *Ronald D. Wesley, Roger D. Woods* ..... 290–296
- Application of a direct flow cytometric erythrocyte immunofluorescence assay in dogs with immune-mediated hemolytic anemia and comparison to the direct antiglobulin test. *Kelley A. Quigley, Brian J. Chelack, Deborah M. Haines, Marion L. Jackson* ..... 297–300
- Early detection of maedi-visna (ovine progressive pneumonia) virus seroconversion in field sheep samples. *R. Varea, E. Monleón, C. Pacheco, L. Luján, R. Bolea, M. A. Vargas, G. Van Eynde, E. Saman, L. Dickson, G. Harkiss, B. Amorena, J. J. Badiola* ..... 301–307
- Multiplex polymerase chain reaction assay for identification of enterotoxigenic *Escherichia coli* strains. *Jacek Osek* ..... 308–311
- Evaluation and use of a nested polymerase chain reaction assay in cats experimentally infected with *Bartonella henselae* genotype I and *Bartonella henselae* genotype II. *Alma F. Roy, Richard E. Corstvet, Ronald A. Tapp, Kathy L. O'Reilly, Hollis U. Cox* ..... 312–322
- Correlation of ergovaline and lolitrem B levels in endophyte-infected perennial ryegrass (*Lolium perenne*). *Jeannette T. Hovermale, A. Morrie Craig* ..... 323–327
- Immunoreactivity of A103, an antibody to Melan A, in canine steroid-producing tissues and their tumors. *José A. Ramos-Vara, Marilyn E. Beissenherz, Margaret A. Miller, Gayle C. Johnson, John M. Kreeger, Lanny W. Pace, James R. Turk, Susan E. Turnquist, Gary L. Watson, Ben Yamini* ..... 328–332

### BRIEF COMMUNICATIONS

- Complex vertebral malformation in a Holstein calf: report of a case in the USA. *Robert B. Duncan, Jr., Colin B. Carrig, Jorgen S. Agerholm, Christian Bendixen* ..... 333–336
- Nucleotide sequence and polymerase chain reaction/restriction fragment length polymorphism analyses of Aleutian disease virus in ferrets in Japan. *Masaru Murakami, Chikako Matsuba, Yumi Une, Yasuo Nomura, Hideo Fujitani* ..... 337–340
- Characterization of an undifferentiated malignancy as a mast cell tumor using mutation analysis in the proto-oncogene *c-KIT*. *Daniel Zemke, Behzad Yamini, Vilma Yuzbasiyan-Gurkan* ..... 341–345
- Digital papillomatosis in a confined Beagle. *Brad M. DeBey, Mary Bagladi-Swanson, Sanjay Kapil, Frederick W. Oehme* ..... 346–348
- Idiopathic disseminated intracytoplasmic neuronal vacuolation in a neonatal Holstein calf born in the USA. *Amir N. Hamir, Perry Habecker, Allen Jenny, David Hutto, Mick J. Stack, Melanie J. Chaplin, Judi Stasko* ..... 349–351
- Rhinospidiosis in a cat. *Peter G. Moisan, Stephanie V. Baker* ..... 352–354
- Prevalence of *eaeA*<sup>+</sup> *Escherichia coli* isolated from pigs with diarrhea. *Junghyun Kim, Changsun Choi, Chanhee Chae* ..... 355–356
- Application of competitive enzyme-linked immunosorbent assay for the serologic diagnosis of classical swine fever virus infection. *Alfonso Clavijo, Min Lin, José Riva, En-Min Zhou* ..... 357–360
- A simpler, more sensitive competitive inhibition enzyme-linked immunosorbent assay for detection of antibody to malignant catarrhal fever viruses. *Hong Li, Travis C. McGuire, Uwe U. Müller-Doblies, Timothy B. Crawford* ..... 361–364

Detection and confirmation of reptilian adenovirus infection by in situ hybridization. <i>Laura E. Leigh Perkins, Raymond P. Campagnoli, Barry G. Harmon, Christopher R. Gregory, W. L. Steffens, Ken Latimer, Susan Clubb, Maria Crane</i> .....	365–368
Instructions to Authors .....	369–370
Position Announcements .....	371–372
